DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 6-8, filed 20 October 2006, with respect to rejections made under 35 USC§102 & 35 USC§112 have been fully considered and are persuasive. The rejection of 1, 8-10, 16-19, 21-36 has been withdrawn.

The following rejection is deemed proper.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 16, 19, 21-22, 24, 33-34 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Diehl (US Pat. 5,569,676).

US'676 teaches a compound and pharmaceutical composition containing said compound to treat arthritis. Said compound is cetyl myristoleate and can be administered to humans daily. See column 2.

4. Claims 1, 8-10, 16 rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO-01/85162.

Art Unit: 1621

WO'162 teaches a cetylated fatty acid and pharmaceutical composition containing said compound. Said compositions contain the cetylated fatty acids in the amount of 50 to 98% w/w of the mixture.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1, 16, 18-19, 21-31, 33-36 rejected under 35 U.S.C. 102(a) as being clearly anticipated by Lord et al. (US Pat. 6,417,227).

6. Claims 1, 16, 18-19, 21-31, 33-36 rejected under 35 U.S.C. 102(e) as being clearly anticipated by Lord et al. (US Pat. 6,417,227).

US'676 teaches a compound and pharmaceutical composition containing said compound to treat arthritis. Said compound is cetyl myristoleate and can be administered to humans and animals daily. See columns 2-3.

Conclusion

7. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE**

Art Unit: 1621

FINAL even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
